

SICSA Visual Analytics Meeting

April 11, 12pm – 5pm, Room C50, Edinburgh Napier University, Merchiston Campus, 10 Colinton Road, Edinburgh EH10 5DT

Description

This meeting was arranged to bring together all those interested or involved in Information Visualisation or Visual Analytics to form a SICSA Visual Analytics Group within the MMI theme. The meeting allowed members to meet other researchers across SICSA involved in the area, present an overview of their work/interests and allowed us to plan how we might build our network. Already this year there are visiting researchers in the field coming to Scotland through SICSA including Ben Schneiderman, John Stasko and Sheelagh Carpendale so the meeting allowed us to discuss these visits and other proposed activity.
